

What are we going to do with one or two giant media outlets? We are going to get lied to and never learn the truth about most issues. Do not permit media giants to buy up and consolidate more stations and newspapers into the same corporation. Monopoly does not serve the best interests of people. America is still a great nation. But Bush and his Bushreich are slowly destroying our freedoms and liberties and we must combat him and we can't do so the way the media is owned today. The right wing super rich republicans own it all and no one is allowed to speak out against this administration. All we hear is how great Bush is and he is not great. He is an evil, lying, crook and should be impeached now.
